SARAH NASIR

Full Stack Developer

sarahnasir545@gmail.com linkedin.com/in/sarah-n-610b20244 Lahore, Pakistan

SUMMARY

Motivated and detail-oriented full-stack developer with hands-on experience in building and maintaining web applications across diverse domains, including ride-hailing, food delivery, and lifestyle tech. Proficient in front-end development using React.js, Next.js, and Tailwind CSS, and skilled in back-end development with Node.js and Nest.js. Experienced in working with both SQL and NoSQL databases, as well as integrating and designing scalable RESTful APIs.
A strong team player with a passion for clean code, performance optimization, and engineering best practices. Committed to continuous learning and staying current with modern development tools and workflows. Adept at collaborating with cross-functional teams in agile environments to deliver reliable, intuitive, and high-performing solutions.

EDUCATION

BS Software Engineering
COMSATS University Islamabad
09/2020 - 06/2024

CGPA
3.6 / 4.0

PROJECTS

Zoom Cars

07/2024 - 11/2024

Contributed to the admin portal for Zoom Cars, a ride-hailing app similar to InDrive/Uber with many additional features.

- Frontend development done in React.js with Tailwind CSS.
- Backend development done using Nest.js and PostgreSQL.
- Implemented key modules for ride management, driver assignment, users, dashboards, dispatch, and bookings.
- Implemented features for driver and customer management, ride booking, dispatch operations, and administrative tasks.
- Collaborated with the backend team to align on data structures and workflows.
- Integrated REST APIs for real-time ride updates and user actions.

Foodies First

11/2024 - 01/2025

An administrative platform designed to streamline food delivery services like orders, menus, and locations.

- Frontend development done in Next.js and Tailwind CSS.
- Designed and implemented an administrative dashboard for restaurant operations.
- Developed key features for order management, user roles, menu customization, and product handling.
- Built reusable UI components and implemented role-based access control.
- Integrated with REST APIs for dynamic data handling and state management.
- Ensured responsiveness and user experience across devices.

On Your Clicks

02/2025 - Present

An innovative platform assisting parents in choosing baby names through interactive features.

- Frontend development done in Next.js and Tailwind CSS.
- Backend development is done in Nest, PostgreSQL.
- Designed and implemented a baby name suggestion platform with smart filtering.
- Implemented a family tree feature, allowing users to link names with family history and create personalized family name trees.
- Added rhymes and birthday tunes for each name to make the experience more engaging for parents-to-be.
- Built a polling system, enabling users to vote on names and share polls with friends and family for feedback.
- Enabled features with multilingual support, allowing users to explore names in various languages.
- Managed state using Redux RTK Query for persistence.
- Designed UI for a seamless user experience.

TECHNICAL AND FUNCTIONAL SKILLS

React | Next.js | Redux | Nest.js | Node.js | Tailwind | RESTful APIs | AWS AI | Javascript | PostgreSQL | HTML/CSS | Vercel | Github | Javascript | Agile | Technical Problem Solving | Cursor | Collaboration & Team Support | Project Contribution | Ownership

EXPERIENCE

Full Stack Developer
NETSOL Technologies Inc
01/2026 - Present Lahore, Pakistan

- **Building responsive web interfaces using Next.js** with optimized rendering and improved page performance.
- **Managing application state using Redux Toolkit and RTK Query** for efficient API data fetching, caching, and synchronization.
- **Working in Agile teams using Jira, Git, and Azure DevOps** while coordinating with designers and backend developers.

Associate Full Stack Developer
Tekrowe
07/2024 - 11/2025 Islamabad, Pakistan

- **Developed full-stack applications using modern web technologies**, including both front-end interfaces and back-end systems, ensuring seamless integration and performance across platforms.
- **Collaborated in a team environment to deliver high-quality solutions**, participating in code reviews, discussions, and agile development processes to meet project goals efficiently.
- **Engaged in project ownership and technical problem-solving**, taking responsibility for design decisions, debugging complex issues, and implementing innovative, scalable solutions.

Full Stack Intern
Ineffable Devs
05/2022 - 07/2022 Islamabad, Pakistan

- Contributed to various projects while gaining hands-on experience.
- Assisted in the development and testing of applications.

KEY ACHIEVEMENTS

AWS Certified AI Practitioner
Amazon Web Services (AWS) — August 2025
Covers foundational AI/ML concepts and AWS AI services including SageMaker, Rekognition, and Lex etc.

Ride-Hailing Platform Admin Panel
Successfully developed and integrated key modules for ride management in a large-scale ride-hailing app.

1st Position (Web Category) in FYP
Developed an interior design app using Three.js
